Acknowledgement

I would like to express my special appreciation and gratitude to my advisors ***Prof. Arun Baron Samaddar (NIT Sikkim)*** and ***Prof. Wolfgang E. Nagel (TU Dresden)*** for their constant support with technical skills and resources. It was due to their constant effort and supervision on various aspects of ***Programming and Parallelization Concepts***, that I could successfully complete my thesis work.

I would also like to extend my thanks to my supervisors ***Dr. Matthias Lieber*** and ***Mr. Thomas William*** who helped me with numerous problem throughout the development and providing me access to their valuable skills and suggestions. They also helped me a lot in getting used to with the various HPC Systems at TU Dresden.

In the end, I would also like to thank my family members for their constant moral support. They always appreciated my work and encouraged me to pursue research in the coming years of my studies. Last but not the least, I would like to thank all my friends for motivating me though my work and help me lower the stress during my hard times.Without you all, this would never have been a success.
